Registrar

National Textile University

Faisalabad

Respected Sir:

We are three Sri Lankan students who have been studying at National Textile University, Faisalabad under Pak-Sri Lanka Education Cooperation Program. We are currently studying in the 4th semester.

Due to the increase in the inflation rate we currently started facing financial difficulties. After adjustment of hostel funds, we have to pay nearly 60% of our monthly stipend for only food, therefore, a very less amount remains left for our day-to-day living expenditures. In the coming period, that expense will increase more which will be very difficult for us.

The amount received by HEC per year,

- Average Tuition fee – 180,000 PKR
- Maintenance Allowance - 120,000 PKR
- Hostel Charges – 78,000
- Book Allowance – 10,000 PKR

The expenditures per year,

- Average tuition fee – 120,000 PKR
- Total Hostel Charges (Including mess charges) – 137,000 PKR

**Average surplus tuition fee per year – 60,000 PKR**

You, therefore, very humbly requested to adjust our monthly mess charges from scholarship funds which are available with the University under our surplus tuition fee funds. That will greatly ease us to make other expenditures from our monthly stipend.

We'll be greatly thankful to the university for this kindness.

Yours sincerely
